

DEPARTMENT OF PUBLIC WORKS

Perry Avenue One-Way Detour

June 9, 2017

Dear Residents & Property Owners,

The City of Norwalk, under the State Project #102-319 - Rehabilitation of Perry Avenue Bridge over the Norwalk River, will be implementing a **One-Way Detour Route on Perry Avenue** due to manufacturing delays of new bridge rails. Public Works has determined that establishing a One-Way Detour Route (as shown below) will allow the bridge's construction to continue and minimize the unforeseen delay. Eastbound traffic will be detoured through the signed route. The detour will begin on **June 19, 2017**. Both lanes will be reopened when the new bridge rails are installed. This detour is expected to last 3 months.

Please drive slowly through the area, anticipate delays, and plan your day accordingly. Access to and from your residence/business will not be restricted.

Any questions call Customer Service at 203-854-3200 during their business hours: Monday through Friday from 8:00AM to 4:30PM.
